BRACELET SIZE GUIDE

Please set this guide to 100% scale and print it on A4 paper, then use the ruler to find the right size for you. You can put a credit card or bank card on the rectangle below to verify the accuracy of the printed dimensions. If the length of the card fits in the rectangle, the scaling is accurate.

Using the Cartier paper sizer

1. Cut out the paper sizer with care.
2. Place your paper sizer around the wrist. To ensure a comfortable bracelet fit, we recommend measuring the thickest part of the wrist, usually the wrist joint.

3. The number indicated by the arrows is the wrist size.
4. Cartier recommends adding one centimeter for a loose fit.
5. Go back to the website by scanning the QR code and follow the instructions. It is important that you do so because sizes between Cartier Bracelets may differ slightly by collection and model.
